

Closure of Merri Creek Bridge at Walker Street

The bridge over the Merri Creek between Walker Street and Rushall Train Station, will be temporarily closed due to bank reconstruction works.

These are essential safety works by Darebin Council to manage the subsiding creek bank. The works will begin in early February and are expected to take approximately 2 months. During the works there will be no through access from Walker Street to McLachlan Street. Council apologises for any inconvenience.

Pedestrians and bike riders:

Please take an alternative route via Koonda Lat Bridge or High Street Bridge as indicated on the map below.

Train users: Merri, Westgarth and Clifton Hill Train Stations are an easy walking distance.

For more information: contact Daniel Ospina, Project Manager at Darebin Council on 8470 8425 or 8470 8888
