

# SHARE RUSHALL RESERVE

---

## Build the Path

We are local residents who support City of Yarra's proposed shared trail through Rushall Reserve - but we need your help!

The proposed shared trail will have many benefits including:

- opening the park for the use and enjoyment of more people
- connecting the Merri Trail
- linking the park to residents living near Rushall station
- quicker access to Rushall station from far-North Fitzroy
- maintaining dog-off lead and open natural spaces
- increased safety due to passive surveillance and a second exit
- reduced traffic and conflict at Rushall Station underpass

Council have a design and funding for the path but it has been opposed by a small but vocal group of locals who don't want to share the park - it might not be built without your support.

Please help support the path by filling out the council survey:
